Connector assembly - Rotary transfer

Assemble, inspect, join

**Fully automated cell -
rotary transfer machine with automated parts feed**

Assignment:

Design and manufacture an assembly system for plugs

Special features:

- Fully automatic machine with bowl feeders
- Assembly processes as parallel running rotary transfer machine
- 100% automated assurance of correct assembly

Verkettung der Montageschritte mit einem Rundteller

Vollautomatische Zuführung und Positionierung

Montage und deren anschließende Prüfung » Höchste Prozesssicherheit
